

Mission Valley Local Rules

Sandscape Cart Paths: A player does not get relief on cart path areas that are sandscape, so the player needs to play the ball as it lies. The only cart paths that players get free relief from are the paths made of asphalt or concrete.

Embedded Ball in Face of Bunkers: When a player's ball is *plugged* in the upslope or face of the bunker, they may take free relief by placing the ball on the flat portion of the bunker.

Sprinkler Head (Around Greens): Sprinkler heads located within two club lengths of the green and within two club lengths of the ball are *immovable obstructions*. Free relief may be taken when the sprinkler head intervenes on the line of play between the ball and the hole; lift and drop the ball at the nearest point where the ball lays that is not closer to the hole; avoids intervention and is not on the putting green.

Fence on #4 and #6

The fence on #4 and #6 is an *immovable obstruction* so you may take free relief. You may take a drop (which would be nearest point of relief and then one club length no closer to the hole. Out of bounds is marked by white OB stakes outside the fence. For the ball to be out of bounds, the ball must entirely cross the OB stake or white line, which is outside the fence.
